exotic botanicals

"Deriving from a typical indigenous ritual, the first gin to be produced with real coca leaves, extremely fruity with a hint of pineapple"

the first gin in the world produced with real coca leaves from Peru. A striking tropical combination of delicate juniper, subtle bitter coca leaves, tones of tamarillo (tree tomato), orange, red pepper, papaya and South American dragon fruit.

"WE ARE NOT ON THE SIDE OF THE PITCH, WE PLAY THE GAME OF LIFE ... AND WE PLAY IT UNTIL DEATH ... AS ILLUSTRATIVE REMINDER OF THE FACT THAT DEATH IS NEVER DISTANT, AND FOR THIS REASON, LIFE SHOULD BE FULLY CELEBRATED"

We serve it with: Fever-Tree Premium Indian (GB)

dried orange slice.
