

X GIN

Belgium

soft

aphrodisiac botanicals

**"Cocoa nectar, pure aphrodisiac, gin for queens,
gods and kings"**

For the creation of this gin, Xolato collaborated with the Belgian pastry chef and master chocolatier Peter Messely, in fact among the botanicals we find typical ingredients of the art of chocolate making, such as cocoa beans, almonds, hazelnuts, vanilla and chilli

*inspired by ancient legends of South America to
develop the gin recipe, creating an original but at the
same time well balanced product*

We serve it with: 1724 tonic water (Chile)

Fresh currant cocoa beans.
